ABOUT DEENWAY INTERNATIONAL SCHOOL

Deenway International School is the brainchild of five long time professional Islamic educators who saw the need for the Islamic religious education to form the driver and key pillar to support the curriculum offered for the 21st century learner. DIS is the first International school in Mombasa to offer integrated education combining the British National Curriculum and the Islamiyat curriculum working seamlessly to shape our students holistically for life and work

WHO WE ARE

Deenway International School is an integrated learning Centre offering holistic Islamic studies and British National curriculum - Edexcel with a main objective of shaping and moulding future generation to be progressive, dynamic individuals at the same time conscious and proud of their Islamic identity and heritage.

MISSION

We aspire to engage and empower students in achieving educational excellence, character development and service to communities, through the integration of British National Curriculum and Islamic Studies.

OUR VISION

To lead in providing outstanding International Schools in East Africa that graduate balanced and holistic students versed in integrated Islamic Knowledge and Human Arts & Sciences.

FROM THE PRINCIPAL DESK

MR. MUIGAI M.

The integrated approaches to education acknowledge the full spectrum of students' wider needs and address challenges with a range of support. We combine education to the wider Islamic religion concepts, including health, others focus on lifelong skills for life and work.

I am truly humbled and honored to welcome you all to Deenway International School. We offer an integrated approach to learning that provides students with overarching organizing ideas and concepts, which help them develop the bigger picture and not see learning episodically. Instead, they begin to internalize the process of making lifelong connections across the Islamic education concepts and other disciplines, and or among topics within a discipline.

LIBRARY TRIP YEAR 7 & 8

FACILITATED BY MRS SHAMIM BREK FROM THE UNITED KINGDOM

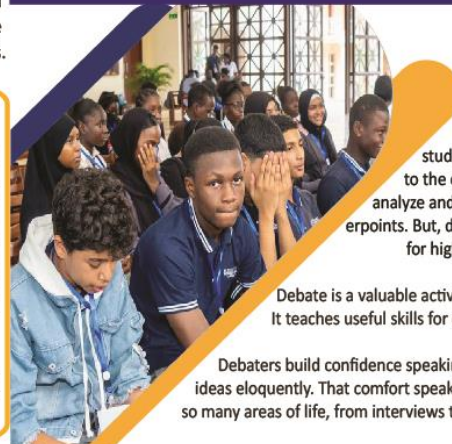

17th of May 2023. Dis Students of year 7 & 8 went to the Kenya National Library Services of, Mombasa for learning. DIS has planned for every year for students library field trip! mostly the end of the year is an especially good time to visit. Library visit lets students know that they can still access hundreds of books and reading resources that are not available in the market or books and resources that are expensive to own. by doing so, we are building a reading culture to our students showing that they can continue to be avid readers throughout their life.

2022 -2023 GRADUATION

On 24th JUNE 2023 was Dis Graduation day that had held immense importance in the lives of our students. The day symbolized the culmination of their academic journey and marks the beginning of a new chapter in their lives. It was a day of celebration, reflection, and gratitude that will be cherished by graduates for years to come.

AFRICAN DEBATE ACADEMY CHAMPIONSHIP

DIS Senior school students debate on 16th June 2023.

Debate is challenging for students because they have to listen to the opposing side's arguments, then analyze and present their points and counterpoints. But, debate is a rewarding experience for high school students in many ways.

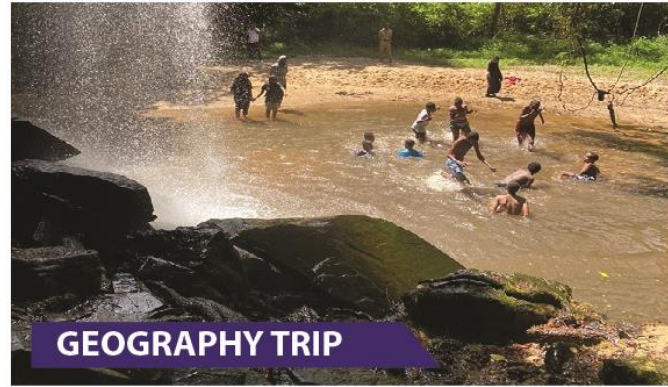

Debate is a valuable activity for students of all skill levels. It teaches useful skills for other academic pursuits and life more generally.

Debaters build confidence speaking in public and expressing their ideas eloquently. That comfort speaking in front of others is useful in so many areas of life, from interviews to school presentations to discussions in college seminars.

Regular physical activity is one of the most important things you can do for your health. Being physically active can improve your brain health, help manage weight, reduce the risk of disease, strengthen bones and muscles, and improve your ability to do everyday activities.

Improvement of Health

Outdoor sports are great for kids and can help with your fitness. Regular exercise can help you build a strong heart, bones and lung function. It also helps prevent chronic diseases.

GEOGRAPHY TRIP

Deenway school geography trips are designed to provide the students a holistic geographical experience, building in elements of physical, human and environmental geography.

STUDENTS CAREER FAIR

Students career guidance through career exhibition: the candidates are guided appropriately for career choice through professional representatives from various universities.

**FROM THE MUDIR DESK
SHEIKH KASSIM**

First and foremost, I thank Allah for the success that we have achieved so far. Secondly, I thank all the parents for trusting us with your children, and for your continuous co-operation and support towards moulding the life of our children. We are humbly honoured and we ensure you that your child here at Deenway is in safe and in good hands.

Here, we work collectively as one team towards moulding the behaviour of our youth as well as making them excel both in secular and in Islamiyaat. The ultimate goal in our hearts is to make them successful in this life and in the hereafter. Once again, thank you all and may the Almighty Allah bless you.

BUDGET TRIP AT NAIVAS LIKONI FOR JUNIORS

22nd of June 2023. Going shopping helps kids learn that words and numbers are useful and meaningful.

Learning about Money.

Money is a tricky concept to teach kids without hands on experience. If our kids grow up seeing us buy things, handle money, use bank cards, etc they will have a good, real life, foundation of experience on which to build their knowledge about money.

Practicing Social Skills.

Social interaction was the number one reason we braved the supermarket with our babies – We needed to

see other adults! Our kids also benefit from seeing, meeting and interacting with a range of different people. The supermarket is also a great place to experience and practice social skills such as waiting your turn, being respectful to others, speaking politely, asking for help.

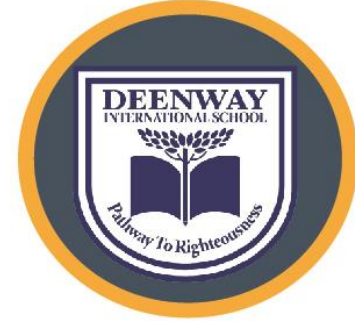

Learning about Advertising and Labeling.

We want our kids to make healthy choices about the foods they consume, and to do that they need to be informed. Our students learnt how to read a label and compare items. They realised that the use of branding items like ‘healthy’ or ‘99% fat free’ is to entice customers to buy the goods.

A TRIP TO HALLER PARK

11th May at Haller Park, formerly known as Bamburi Nature Trail, was the man-made sanctuary to receive the United Nations Environmental Program Global 500 Roll of Honor Award and today this small preserve in the north coast of Mombasa is a model for other reclamation projects. What was once limestone quarries is now a thriving ecosystem of forest, grasslands and ponds with walking trails for you to view the fenced wildlife, such as hippo, giraffe, antelope, buffalo and smaller mammals, as well as bird
